Very Important Visitors

How do we handle them?

Very Important Visitors

How do we handle them?

We have an application ready to go production

Very Important Visitors

How do we handle them?

We have an application ready to go production
and the policy is almost decided upon

Very Important Visitors

How do we handle them?

We have an application ready to go production and the policy is almost decided upon, I hope :-)

Very Important Visitors

How do we handle them?

We have an application ready to go production and the policy is almost decided upon, I hope :-)

Services All our guests want is Wifi

Very Important Visitors

How do we handle them?

We have an application ready to go production and the policy is almost decided upon, I hope :-)

Services All our guests want is Wifi

Storage A special branch in the directory (easier for the RADIUS servers)
