

# First results from SSEDIC One year Scoping a Single European Digital Identity Community

Victoriano Giralt  
Central ICT Services  
University of Málaga

**Every European Digital**

**Identity-Centric Internet**

Scoping the  
Single  
European  
Digital  
Identity  
Community

**Building a Thematic Network for European e-ID**

## ICT PSP Program Call 4, Universal ID, Thematic Network

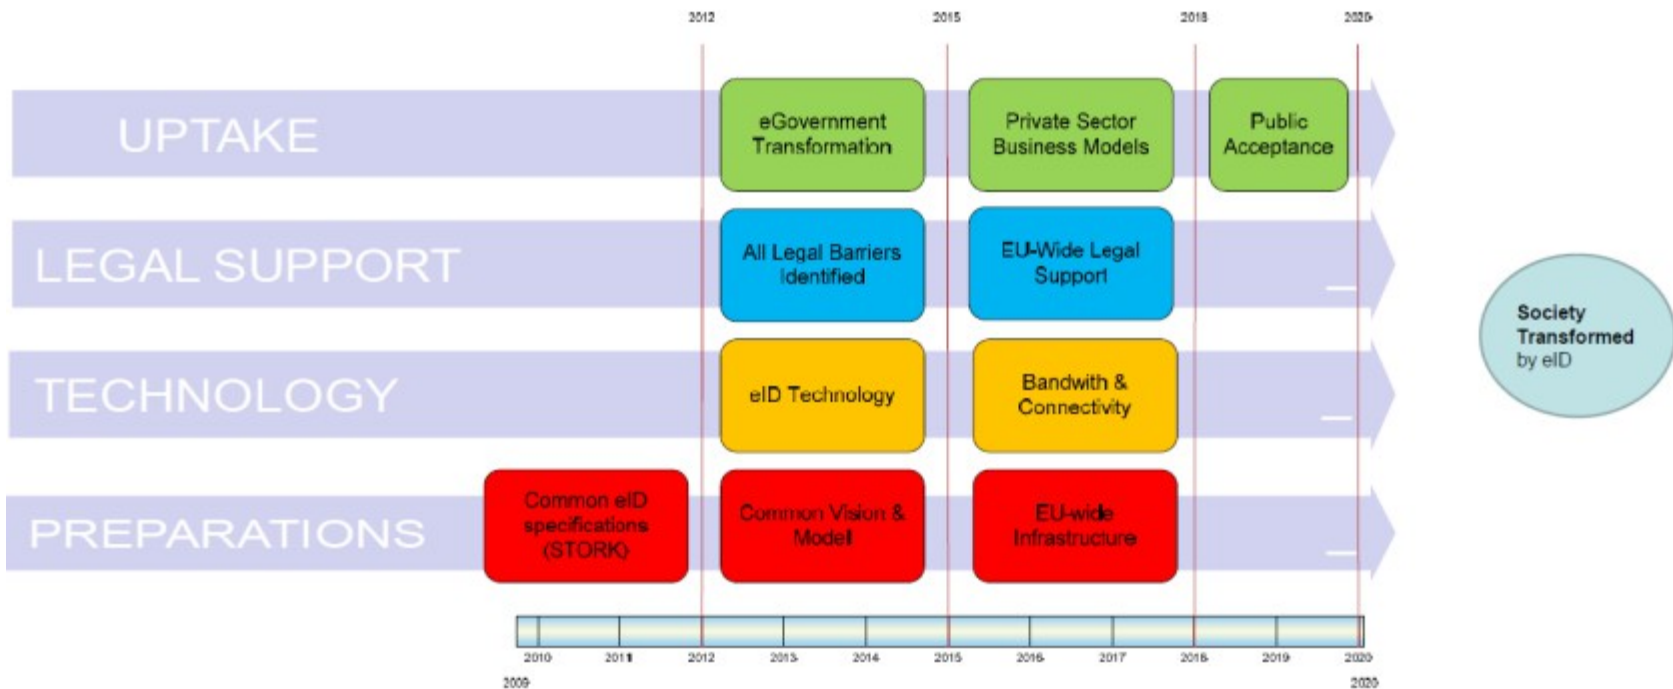

Contributing to the  
Digital Agenda for Europe

# What is SSEDIC doing

- Establish an as large as possible forum for debate
- Establish a framework and roadmap for action (2013) in line with the Digital Agenda for Europe
- Gain a better understanding of the impact of *universally accepted eIDs* for citizens and business

# Transformation to a Universal ID

# How

will SSEDIC achieve its goals

- Involving all stakeholders
  - ICT
  - Policy
  - Administration
  - Users
  - Researchers
  - ...
- Aligning with EU actions
  - STORK
  - SPOCS
  - and new calls
- Doing open consultations
  - Being comprehensive
    - Citizens
    - Business
    - Privacy
    - Security
    - Usability
    - Interoperability
    - Legal
    - ...

# Barriers that could make SSEDIC fail

- Lack of response from stakeholders
- Non-representative opinions
- Lack of funds for in-depth citizen consultation
- Contrary interests of stakeholders

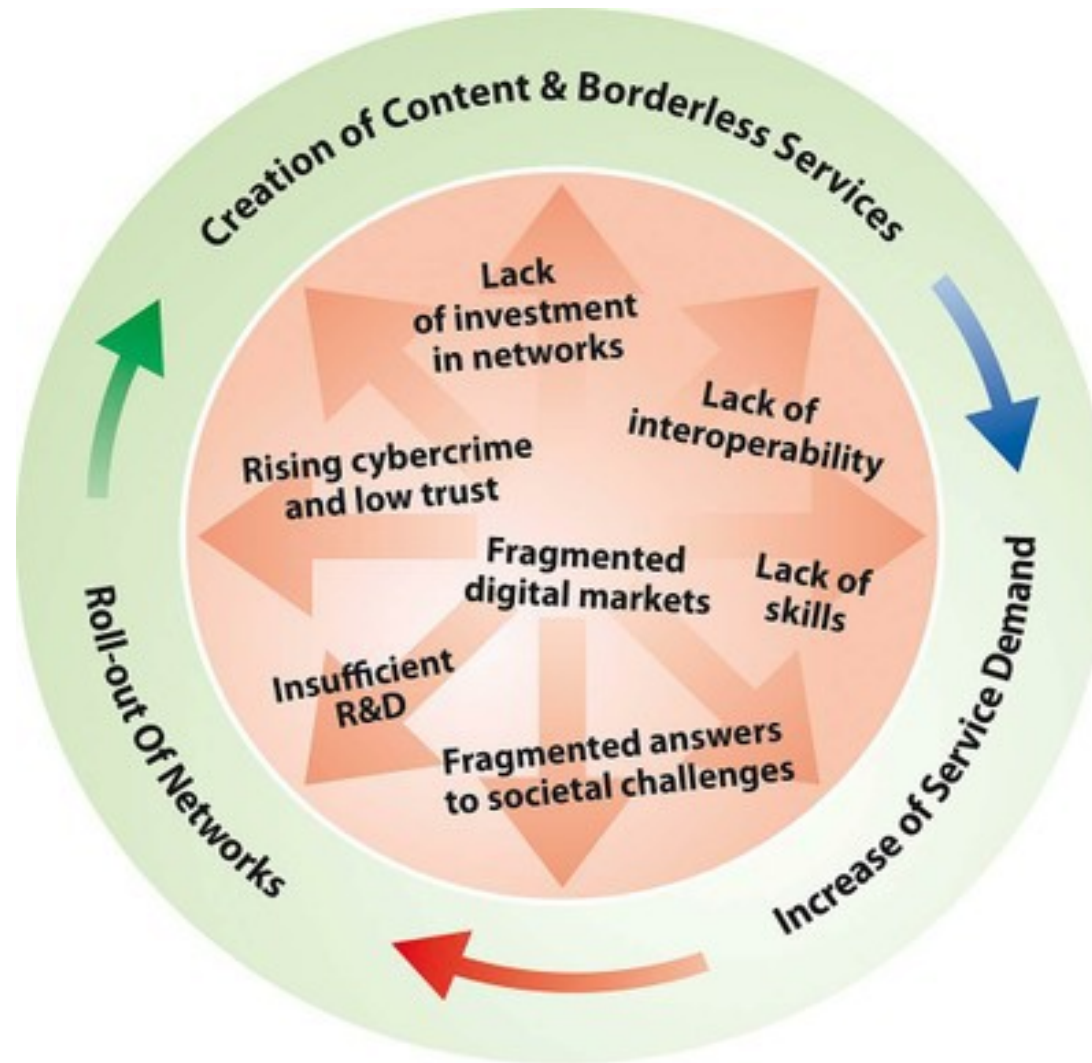

# Barriers that could make SSEDIC fail

- Lack of response from stakeholders
- Non-representative opinions
- Lack of funds for in-depth citizen consultation
- Contrary interests of stakeholders

# Relevance

# Relevance

- Relevance for the EU Digital Agenda
  - Goal 2: improve ICT standard-setting and interoperability
  - Goal 3: enhance trust and security
- Relevance for Business in general
  - Interest and motivation of 35 partners (67 experts)
  - Involvement of “associated” partners (50+)
  - Open to anyone interested in electronic identity
- Alignment with STORK
  - STORK partners in SSEDIC are:
    - ATOS, A-SIT, T-Systems, BSI, CapGemini, and EEMA.
- Connections with other identity related projects:
  - PEPPOL, SPOCS, SEMIRAMIS, TDL ....

“Not just a theoretical exercise,  
but recommending **practical steps**  
in each stakeholder sector  
towards a vision of the  
Single European Digital Identity Community”

- **Business Models**
  - **Best Practices**
  - **Actions**
- **Timelines**
- **Recommendations**

# PESTLE methodology

## Political

- Political support
- Regulatory changes that need to be made to enable eID exploitation
- International agreements needed

## Economic

- New business opportunities that can be realised
- Impact on existing markets and business

## Societal (Education)

- Education required to enable society to take full advantage of innovation.
- Ethics and Privacy conformance
- Impact on other stakeholder sectors

## Technology

- Technical requirements and dependencies for delivery

## Legal Agreement to standards at sector trade level

- Formal Agreements between sector actors to establish common criteria (standards, semantics, language etc) for interoperability
- Best practice

## Environmental

- Environmental impact assessment

# Results

what has been achieved in one year?

- Sectorial white papers and reports
- Expert survey
  - 211 eID experts surveyed
  - Impact (or not) of eID in the professional environment
  - Their policy view on different aspects of eID
  - Adoption of eID technology in business environment
  - Possible future business and governance models of eID infrastructure
  - Privacy and security aspects of eID

# Results

what has been achieved in one year?

## Deliverables

- SSEDIC EID adoption survey
- SSEDIC stakeholder consultation
- SSEDIC technology and infrastructure
- SSEDIC business and regulatory
- SSEDIC roadmap
