

irisEduPerson:

Recommendations for Modeling a University into a Directory Schema

Carmen López¹ Ignacio Díaz²
Domingo Ortega¹ Liborio Revilla³ Victoriano Giralt⁴

¹University of Seville

²University of Alcalá de Henares

³University of the Basque Country

⁴University of Málaga

EUNIS

Santiago de Compostela

June 25th 2009

Summary

- 1 Why
- 2 Who
- 3 How
- 4 What
- 5 Future

Interoperability is key

we need to exchange information

Interoperability is the degree to which a provider and a consumer can successfully interface having never met

Coppeto, T.: Introduction To OSID V3 for developers

Federations need attributes

with common syntaxes and semantics

irisEduPerson Working Group

supported by RedIRIS

Consensus

best way to achieve smooth progress
