

dUMA

comprehensive personal information management

Victoriano Giralt

Central ICT Services
University of Málaga

EUNIS 2011
Trinity College
Dublin
June 15th, 2011

dUMA

an overloaded name

- The University of Málaga corporate directory
- The public interface to the UMA directory
- A Django based web application
- An identity+ control panel for UMA users
- The main attribute source for federated applications
- A never ending project

dUMA story

How was dUMA born and how it has evolved

A conversation in late 2003

dUMA story

How was dUMA born and how it has evolved

A conversation in late 2003

- We need to set up an LDAP directory

dUMA story

How was dUMA born and how it has evolved

A conversation in late 2003

- We need to set up an LDAP directory
- What for? We've had X.500 for a decade now

dUMA story

How was dUMA born and how it has evolved

A conversation in late 2003

- We need to set up an LDAP directory
- What for? We've had X.500 for a decade now
- I've heard they can be useful

dUMA story

- I've heard they can be useful
- ???????
- You have good connections to international experts
- Yes, I do
- Well, you go find out what can be done and set it up

and there it goes, eight years down the lane,
we even have something to show to the community

Directory structure

how people is represented inside dUMA

Directory structure

principle of the shallow tree

a person is a person

Directory structure

principle of the shallow tree

a person is a person

no matter how many relationships to the institution

Directory structure

principle of the shallow tree

a person is a person

no matter how many relationships to the institution

organise people by way of tags

UCLouvain Programme Partner

dUMA by numbers

how big is dUMA

- 120000+ entries
- 105000+ real person entries

Systems of Record

how to get people into dUMA

- Obvious ones:
 - Student registry
 - Human resources
- Less apparent ones:
 - External grants
 - Self funded projects
 - Collaborators
 - *Ghosts*
 - Walk-ins
 - ...

Systems of Record

how to link people's identity bits

The shac linkage identifiers

- schacPersonalUniqueID
- schacPersonalUniqueCode

and eduPersonPrincipalName

White pages

finding people

The screenshot shows the 'directorio uma' website. At the top left is the 'uma' logo (Universidad de Málaga) and the text 'Directorio > Search'. At the top right is the title 'directorio uma'. Below the header are four navigation buttons: 'mis datos personal details', 'ayuda help', 'a-z alfabético alfabetic listing', and 'localización location'. The main section is titled 'Búsqueda' and contains a search form with the following fields: 'Group:' (with checkboxes for 'PAS' and 'PDI'), 'Name in DUMA:', 'First name:', 'Second surname:', and 'Phone:'.

Password Victoriano Giralte Garcia

Options forgotten password

In case you forget your password, please select the favourite methods to send you a new one.

A una dirección de correo externo a la UMA (seguridad alta)

This option gives you the opportunity to recover the key using an external mail to the UMA, for example, @ gmail.com, @ hotmail.com, ...

If you need to retrieve the key and you have activated this option, you will receive in that address an email with information to change your password.

Al teléfono móvil que ha indicado en la pestaña Móvil (envío gratuito) (seguridad alta)

This option gives you the opportunity to recover the key using a mobile phone.

If you need to retrieve the key and you have activated this option, you will receive a free SMS with information to change your password.

Mediante formulario donde indique su DNI y código universitario (seguridad baja)

Sólo presencial, presentándose en el S.C.I. con un documento acreditativo (seguridad alta)

The option to retrieve ID + password using school code is unsafe by the low level of security against third parties who may obtain such information.

If you select the **presencial**, you can change the password in person at the SCI with some **identification**.

Panel de control de Tickets Wifi de Victoriano Giralt Garcia

Solicitar ticket wifi

Desde aquí puede solicitar un ticket para la wifi.

Help:

- La validez del ticket será de 5 días desde el día que se solicite.
- El procedimiento para la emisión de un ticket será el siguiente:
 - 1) Se introducirá en el formulario del paso 1 la identificación del usuario destinatario del ticket (DNI, pasaporte,...)
 - 2a) Si se encuentra el usuario en DUMA, sólo tendrá que seleccionar el perfil de los datos del formulario del paso 2
 - 2b) Si no se encuentra el usuario en DUMA, tendrá que rellenar los datos del formulario del paso 2
 - 3) Una vez se rellene el formulario correctamente y se pulse Guardar, se obtendrá por pantalla los datos relativos al ticket con los que el usuario podrá conectarse a la Wifi

Paso 1

Conclusions

what lessons have we learnt over this years

- Identify a key service to promote the project
- A person is a person
- Shallow trees are a *good thing*™
- Classifications allow for overlaid hierarchies
- Find all you SoRs, as exotic as they can be
- Standards reduce friction
- Collaborating with the community was critical

Future

where is dUMA heading to

Planned developments

- Strong authentication (DNIE, STORK)
- Group management
- Account linking (= social logins)
- I18n improvements

Where

can you get your hands on DUMA

dUMA interface: <http://dj.uma.es/duma/>
