Main work items

1. RS^{3}G

2. SSEDIC

RS³G

moving student data around

Some successes

- MLO entered the standardisation process
- Mobility project had a successful coding camp
- Mobility project will use GEANT3 products: GemBus
- Mobility project has defined some datasets to exchange
- There is clear industry interest

RS³G

moving student data around

€

RS³G
moving student data around

Some set backs

- GemBus was not ready in time (for Janina's student schedule)
- Volunteers are running out of steam
- There is a clear need for some funds

SSEDIC
Scoping a Single European Digital Identity Community

Some news from the SSEDIC side

- The community is growing steadily, but slow
- The first big public consultation has been carried out
  (results expected in two weeks)
- Present in a meeting with several EU MPs
- It seems the World Bank is interested

That's all folks!

That's all folks!
Grazie!
